Library Study Rooms

The Library's private study rooms are intended for educational projects, small group study, and similar library/academic/educational purposes. They are not intended for patient care documentation, counseling, ad hoc office space, interviews, evaluations, or general meetings. Please allow students, trainees, and other people with library or educational needs to be able to use these rooms as needed. We appreciate your cooperation.

Educational Equipment

The Library has easels with a flipchart and markers available; iPads for use in Academic Center classrooms and the Library; and a mobile video unit with monitor, DVD player, and VCR. The monitor can also be used with a laptop with an HDMI connection. All of these items are listed in the WebVoyage online catalog just like books and journals, and each item is barcoded for check-out. To reserve items, call the Library at ext. 2865, or email library@uthct.edu (Library, Library in the Outlook Directory).

Instruction and Talks

Library staff is available for instruction in database searching and other library skills. In addition, you can schedule a talk on the history of UT Health Northeast from Camp Fannin to the recent past. Please send requests to library@uthct.edu, or call the Library at 2865.

Thank You

- Steven Day, Information Technology
- Michelle Harris, Academic Administration
- Jeff Johnson, Institutional Advancement
- Don Kessel, Information Technology
- Amanda Leverett, Biotechnology
- John Moore, Public Affairs
- David Nettleton, Information Technology
- Jim Post, Information Technology
- David Rodriguez, Plant Operations

New Books
