

Applications and Requirements

Applicants for any UT Health Science Center residency program will:

- Hold an appropriate degree for that educational training.
- Have a valid certificate from the Educational Commission for Foreign Medical Graduates (ECFMG) if a foreign medical degree is held.
- Register for the Match through NRMP. The following program numbers will help you register for the appropriate program. You will not be ranked for the match unless you are registered through NRMP.
 - Anesthesiology - (Tyler @ UTHT) – 0404800002
 - Child and Adolescent Psychiatry Fellowship (Tyler @ UTHSCT) - 4054840002
 - Family Medicine (Tyler @ UTHSCT) – 1204821464
 - Rural Family Medicine (Pittsburg/Tyler @ UTHP) – 1204800717
 - Family Medicine (Athens @ UTHA) – 1204800728
 - Internal Medicine (Longview @ CGSMC) – 1404800890
 - Internal Medicine (Tyler @ UTHT) – 1404800903
 - General Surgery (Tyler @ UTHT) – 4404800438
 - General Preventive Medicine (Tyler @ UTHT) - 3804888139
 - Occupational Medicine (Tyler @ UTHSCT) – 3804877091*
 - *Occ Med program does not participate in the match*
 - Psychiatry (Tyler @ UTHSCT) – 4004800302
 - Psychiatry Rural (Pittsburg/Tyler @ UTHSCT) – 4004800309
 - Sports Medicine (Family Medicine) Fellowship (Tyler @ UTHSCT) - 1274812002

If you successfully match into a UT Health Science Center at Tyler Residency Program, you will be required to immediately begin several onboarding processes through the Graduate Medical Education department that will ensure an easy transition into your residency training program. In addition to these institutional requirements, each program has specific eligibility requirements that must be satisfied.

First and foremost, the Office of GME will begin to process paperwork for your Physician-In-Training (PIT) permit. Any incomplete information or red flags in your background check (see PIT Eligibility Requirements) may result in a delay of receiving your PIT, which could delay your start date. Please plan to work closely with the Office of Graduate Medical Education during the time after the match results have been released. (See additional info on TMB PIT in this packet)

Other items that will require immediate attention before your date of hire/program orientation:

- Consent to a background screening as part of the employment process.
- Pre-Employment Testing through Occupational Health (includes immunizations, drug screening, and tobacco/tobacco products screening)
 - You will need to provide all prior immunization/shot information on your testing day

- Professional Photograph Appointment
- Benefits Enrollment with UT Health Science Center's Human Resources Department
- Visa application, if applicable
- Valid ACLS/BLS/PALS/ATLS certification (as applicable to residency program)

Orientation is *mandatory*. There will be one day allotted for a general orientation separate from program-specific orientation.

Full enrollment and employment into all residency training programs is contingent upon the following:

- Graduation from LCME or AOA medical school and obtaining an original medical diploma
- Securing a TMB Physician-In-Training Permit (or full medical license, if applicable)
- Completion of all onboarding checklists
- Completion of all health screening with satisfactory outcomes
- Satisfactory security background check
- If a graduate of an international medical school, valid ECFMG certification
- If a noncitizen, appropriate visa or other documentation
- Social security number
