Landacre Honor Society

- Membership is conferred to medical students who participate in meaningful research during their tenure at The Ohio State University College of Medicine.

WORK EXPERIENCE

07/2000 - 06/2008

Baxter Bioscience

Thousand Oaks, CA

Our facility manufactured recombinant Factor VIII which is a life-saving treatment for hemophilia patients. I worked in the microbiology laboratory for the entirety of my time at Baxter and was promoted to a supervisory position in 2005:

- Part of the management team responsible for day-to-day operations of a fifty employee microbiology laboratory.
- Mentored/coached employees, evaluated employee performance.
- Authored and executed numerous validation protocols for testing procedures within the laboratory.
- Recognized as author of “Best Practice” Final Container Sterility Testing Procedure across the multibillion dollar Baxter Bioscience division.
- Acted as a consultant sent to other Baxter facilities to troubleshoot laboratory testing issues and failures.

09/1999 - 06/2000

Campus Learning Assistance Services

UC Santa Barbara

- Employed as a full-time tutor of college level Physics and Biology. Wrote and presented lectures to five or more classes per day. Each class consisted of 20 college students.
- Provided individual tutoring to NCAA Division I athletes.

INSTITUTIONAL AND COMMUNITY SERVICE

2011 – 2012

Alpha Omega Alpha Excelling Series

Columbus, OH

- Co-chair of committee designed for mentoring junior medical students in regard to academic performance. This role included oversight and development of lectures on enhancing clinical performance and board preparation.

2008 – 2010

Big Brothers Big Sisters of Central Ohio

Columbus, OH

- Mentoring and tutoring of “at-risk” youth at Weinland Park Elementary School.

2006 – 2008

Baxter Global Citizen Team

Thousand Oaks, CA

- Led a team of volunteers in local underserved areas. I personally organized and participated in numerous volunteer events at local food banks and with Habitat for Humanity.

RESEARCH

2009

Samuel J Roessler Memorial Scholarship

Closure of Midline Laparotomies With a Self-anchoring Barbed Suture: A clinical and biomechanical comparison to non-barbed suture. Principal Investigator: W. Scott Melvin, M.D.

- My role included revision of experimental protocol, re-application for IRB approval, assistance with surgical procedures/necropsies, authorship of final report submitted to study sponsor (Covidien).
