The Online Catalog and E-books

The Wise Library's online catalog (linked alphabetically under Resources on the Library home page) is a searchable database that includes records for the HSC Library's books, both printed and electronic. Searching is available by keyword, title, subject, and author. The keyword search finds books by words in the title, series, publisher, subject, and the table of contents.

Great progress is being made in adding records for ebooks in sources such as AccessMedicine, AccessSurgery, AccessPhysiotherapy, PsychiatryOnline, and others, including collections purchased by UT System. Web links are provided in ebook records.

A move to another catalog system is in the planning stages, and the catalog will be supplemented by a discovery tool similar to what is now in use at UTT main campus's Muntz Library (i.e. Swoop Search) that will allow simultaneous searching for books, videos, and journal articles.

Student Textbooks

The Library obtains a copy of each Health Science Center course textbook. These books are on reserve for in-library use only. If you are looking for a course textbook in the Library and can't find it on the shelf or in the Online Catalog, please let a member of the Library staff know. Please leave any books you use on a table so their use can be recorded.

A very small number of course textbooks are available online through the Online Catalog. This is because,

many online textbooks are not available for purchase by libraries, or they are part of expensive ebook package deals.

Currency of Ebooks vs. Printed Books

As the Library continues to add ebooks as much as possible instead of printed books, be aware that our electronic version of a book may be more current than the same book in printed format. We expect this to be a trend as we add more electronic resources, particularly in preparation for the medical school.

If in doubt about our holdings of the most current edition of a book, whether in print or electronic format, consult the online catalog or ask a librarian for assistance.

Student Printing

This is a reminder that student ID badges do not work on the Library printer or any other campus printers that use Secure Print. Instead of using the ID badge, students should attach documents to an email and send it to student.printing@go.uthct.edu. When that is done, a notification email will be sent to the student's GO email address. The email may take up to 15 minutes to arrive. The email includes a 4-digit ID that can be on the printer to retrieve printouts by pressing the Card ID button and entering the code when prompted. The first ID received via email will stay the same, so the student can use it for subsequent printing without waiting for the notification email.

New Books

See list after newsletter.

Thank You

- Information Technology
- Lesa Carsten, Plant Operations
- Tammy Coquat, Mail Room
- Monya Rucker, Police
- Kate Wells, Graduate Medical Education
