The Centers for Medicare & Medicaid Services (CMS) oversees Medicare and Medicaid along with other Federal health care programs and services. This booklet provides an overview of the Medicare and Medicaid Programs and some brief information on other types of health coverage.

## QUICK FACTS

### Medicare

Medicare is a national program administered by the Federal government that consists of:

- **Part A – Hospital insurance**  
Inpatient hospital, inpatient Skilled Nursing Facility, hospice, and some home health services
- **Part B – Medical insurance**  
Physician services, outpatient care, durable medical equipment, home health services, and many preventive services
- **Part C – Medicare Advantage (MA)**  
Medicare-approved private insurance companies that provide all Part A and Part B services and may provide prescription drug coverage and other supplemental benefits
- **Part D – Prescription Drug Benefit**  
Medicare-approved private insurance companies that provide outpatient prescription drug coverage

Health care coverage for:

- People 65 or over
- People with certain disabilities
- People diagnosed with end-stage renal disease (ESRD)

Medicare is the nation's largest payer of inpatient hospital services for the elderly and people with ESRD.

### Medicaid

Medicaid is a network of statewide programs administered by State governments following broad national guidelines established by Federal statutes, regulations, and policies.

Health care coverage for:

- Low-income adults
- Pregnant women
- Children

Eligibility varies from State to State.

Medicaid is the nation's largest payer of mental health services, long-term care services, and 40 percent of all births.

## BENEFICIARIES

### Medicare

Health insurance for:

- People 65 and older
- People younger than age 65 with certain disabilities who have been entitled to Social Security disability or Railroad Retirement Board benefits for 24 months (the 24-month waiting period is waived for people with amyotrophic lateral sclerosis [ALS], also known as Lou Gehrig's disease)
- People of any age with ESRD

### Medicaid

Individuals must meet eligibility requirements and State rules.

Federal law requires States to cover certain population groups and gives them the flexibility to cover others.

Population groups include:

- Children and adolescents
- Parents or caretaker relative of minor children
- Certain people with disabilities
- Pregnant women
- Seniors
- Youth "aging out" of foster care

For many population groups, individuals must meet certain resource limits.

In addition, individuals must meet State and Federal requirements for:

- Immigration status
- Residency
- U.S. citizenship

### Dual Eligible Beneficiaries

Dual eligible beneficiaries are individuals enrolled in both Medicare and Medicaid, including individuals enrolled in Part A, Part B, or both who receive full Medicaid benefits, assistance with Medicare premiums, cost sharing benefits, or any combination of those.

For more information, refer to the [Dual Eligible Beneficiaries Under Medicare and Medicaid](#) booklet.

## COVERED SERVICES

### Medicare

Beneficiaries may choose coverage as follows:

- Part A and Part B services through the Original Medicare Program with optional Part D coverage through a stand-alone Prescription Drug Plan
- Part A and Part B services through an MA Plan if they reside in its service area with Part D coverage included in some MA Plans

**Note:** Some beneficiaries get a Medicare supplement plan (also called Medigap) for expanded coverage in the Original Medicare Program

Part A helps cover:

- Inpatient hospital care
- Skilled nursing facility care
- Hospice care
- Home health care

Part B helps cover:

- Services from doctors and other health care providers
- Outpatient care
- Home health care
- Durable medical equipment
- Many preventive services

Part C includes all benefits and services covered under Part A and Part B and may include extra benefits and services for an extra cost.

Part D helps cover the cost of prescription drugs.

### Medicaid

Some Medicaid Programs pay for care directly. Others use private insurance companies to provide Medicaid coverage.

States **must** cover certain services through their Medicaid Program, including:

- Doctor visits
- Inpatient and outpatient hospital services
- Mental health services
- Needed medications
- Prenatal care and maternity care
- Preventive care, such as immunizations, mammograms, and colonoscopies

States **may choose** to cover added services. Some of these include:

- Dental services
- Home and community-based services
- Physical therapy
- Prosthetic devices
- Vision and eyeglasses
  - Children and adolescents get vision, dental, hearing, and other services through the [Medicaid Early and Periodic Screening, Diagnostic, and Treatment \(EPSDT\)](#) benefit

## OTHER COMMON TYPES OF COVERAGE

You may encounter patients with health care coverage other than Medicare or Medicaid. These programs include:

- Private insurance coverage (such as group health plan or retiree coverage)
- TRICARE
- COBRA
- Workers' compensation
- Liability insurance coverage

For more information on these types of coverage, take the [Medicare Secondary Payer Provisions](#) web-based training course. Need help accessing the course? Find information in [The Medicare Learning Network® \(MLN\) Learning Management System \(LMS\) FAQs](#) booklet.
