NORTHEAST TEXAS REGIONAL HEALTHCARE PARTNERSHIP

STAKEHOLDER TECHNICAL ASSISTANCE SEPTEMBER 27, 2012

Daniel Deslatte
UT Health Science Center Tyler

REGIONAL UPDATE

- The audio from this webinar will be recorded.
- All protocols are posted on HHSC's website and were distributed via Anchor email earlier this week.
- Performing providers should continue working with IGT entities to find a source of IGT for DSRIP and UC.
- HHSC will host another RHP Planning Protocol **Friday, September 28 from 9:00am - 10:30am.**
- We will be following up with stakeholders who indicated on the stakeholder survey that they needed additional assistance.

REGIONAL UPDATE

- **A new requirement in the template is a plan for a learning collaborative.**
 - One option: Utilize the Northeast Texas Center for Rural Community Health at UTHSCT as the clearinghouse for best practices and lessons learned.
- **If you are collaborating on DSRIP with an entity outside the region (ie: Children's Hospital, burn center, etc.), please be sure those projects appear in the RHP 1 regional health plan.**
- **Projects must relate back to a community need, and our goal is to draft the community needs assessment to give providers opportunities to carry out the projects of their choice, provided there is evidence of the need.**

REGIONAL UPDATE

DRAFT Summary of Community Needs

ID #	Brief Description
CN.1	Insufficient access to primary and specialty health care services.
CN.2	Insufficient access to mental/behavioral health care services.
CN.3	High rates of chronic disease, including diabetes, heart disease, asthma, obesity, and cancer.
CN.4	High costs due to potentially preventable hospital admissions/readmissions.
CN.5	Inappropriate emergency department utilization.
CN.6	Efficiency in and effectiveness of health care delivery.
